Technical expertise

Languages:	**Dart**, PHP, C#, .NET, Ruby
Tools :	Xamarin, Xcode, **VS Code**, VS Web
Technologies :	HTML, JavaScript, NodeJS, CSS, Bootstrap, AJAX, jQuery, Laravel, MongoDB, **Flutter,** Firebase, Firestore
RDBMS :	MySQL, SQL Server, SQLite
Operating System :	Mac OS X, Linux/Centos, Windows 10
Middleware :	WebServices, WebAPI
Source Control Tools :	Git, SVN

Professional experience

Codika   **June 2019 - Present**
Senior Mobile/Web Application Developer

Roles and responsibilities
- Created Android/IOS applications for Hotels, Dealers and Health Industry with Google Flutter/Dart.
- Define central repository to share code between projects in mobile application development.
- Perform data analysis on reference data and apply software design principles to satisfy application requirements.
- Developed proposals for improvements and system optimizations.
- Oversee junior offshore developers and testers, who construct, test, install, and maintain software applications, including assigning, delegating, reviewing work, and mentoring.

Grupo Read   **Jan 2018 -June 2019**
Senior Web Application Developer

Roles and responsibilities
- Created and Deployed Online Store with Wordpress, Woo-commerce, and AZUL as payment gateway
- Established Continuous Deployment using Git hooks.
- Responsible for analyzing, developing, testing and supporting highly complex application software
- Perform data analysis on reference data and apply software design principles to satisfy application requirements.
- Developed proposals for improvements and system optimizations.

- Oversee junior offshore developers and testers, who construct, test, install, and maintain software applications, including assigning, delegating, reviewing work, and mentoring.

Suncard Payment   **Jan 2017 -Jan 2018**
Web Developer

Roles and responsibilities
- Developed API restful web application
- Deployed web application to Google Cloud
- Participated in designing & developing of frontend/backend web applications with Laravel.
- Designed, developed, and integrated PHP based content management system and product slide show with existing system, wrote and integrated PHP API to communicate with web host management software via HTTP/json requests.

Mctekk Feb 2015 -Jan /2017
Xamarin Android Developer

Roles and responsibilities
- Created android app consuming API restful to track and manipulate vehicles remotely.
- Integrated google maps to show moving vehicles.
- Published android/ios app at Play Store/App Store.
- Implemented any UI designers in android/ios app
- Worked on development of applications for Android/IOS, with Xamarin.
- Developed location Services using Xamarin.
- Used localization techniques in Xamarin for data translation.
- Used Xamarin.Android for creating native user interface.

Mctekk   **Feb 2014 -Feb 2015**
Senior Backend Web Developer

Roles and responsibilities
- Developed Web Applications using Laravel.
- Created API Restful Web applications.
- Deployed Web Applications to Servers.
- Followed SCRUM workflow in all projects.

Ascend Digital   **Mar 2011 -Mar 2013**
Jr. Software Developer

Roles and responsibilities
- Collaborated Web Application Development

- Published Web applications to servers

Education

- Bachelor's Degree in system engineering from UNICDA in 2017
- Associate degree in Software Technologist from ITLA in 2011
